EcoTank Business+ M3180

Best for demanding businesses that need high-volume mono print, copy, scan and fax at ultra-low cost.

Save money.

A high ink yield combined with Epson's economical inkjet technology delivers a low TCO and a competitive cost per page.

Save time.

This reliable cartridge-free printer features an enhanced ink filling system and easy-to use-ink bottles, keeping intervention to a minimum. Thanks to the ink tank being positioned at the front of the printer, with a clear view of the ink levels, this new design is compact and provides easy access for refilling. Its fast First Page Out Time (FPOT) of six seconds from sleep, and 20ppm print speed, mean you won't be waiting around for jobs. Save energy.

Unlike a laser, our inkjet technology doesn't need any heat during the printing process, helping to keep energy use low and reduce electricity bills.

Business features.

Wi-Fi, Ethernet and USB connectivity and a compact footprint mean that it's easy to place on a desktop and connect to a user's PC or laptop.

* Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 or 29103. Quoted yields are NOT based on ISO/IEC 24711 or 29102. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set will be lower.
