ColorWorks C6500Ae

ColorWorks C6500Ae (BK)

Best for manufacturers and warehouses that need high-volume, in-house colour label production on demand.

Media flexibility.

The C6500 series benefits from a wealth of new features that are designed to provide practical and creative solutions. It supports media widths, from 25.4mm to 215.9mm and boasts expanded media support which even includes textured paper. In practical terms, this range of ColorWorks label printers can print anything from tiny labels for vaping liquid bottles, to large durable labels that are suitable for chemical drums. The matte black ink version (for both Pe and Ae models) also provides users with increased print finish flexibility on textured or plain paper.

Easy to use.

The series has been designed to be extremely user friendly. All operations can be carried out from the front, which saves on operation space. The roll replacement is possible from the front, right and left. We've also designed a number of technical tools to help with printer management, configuration and maintenance, including: web interface and printer fleet management, remote configuration, maintenance and monitoring.

Print quality.

These label printers offer high-quality, high-resolution, four-colour print output as standard; along with colour matching functionality (ICC profile and spot colour matching tool) for impressive, impactful, on-demand colour labels.

Easy integration.

All models in the range are integration-friendly. SAP direct support, ESC Label, Linux and Mac drivers. ZPLII compatible"

DATASHEET / BROCHURE

KEY FEATURES

- **Media Flexibility**
  Expanded media support. Label widths from 25.4mm to 215.9mm
- **Compact**
  Simple, unobtrusive design with front panel operation
- **Built-in peeler model (CW-C6500Pe)**
  For print-and-apply production line goods.
- **Auto-cutter model (CW-C6500Ae)**
