Epson TM-L500A (021): Combo, PS, EDG

TM-L500A (021): Combo, PS, EDG

Best for airlines and airports that need high-speed boarding pass and bag tag printing for passenger processing.

Fuss-free integration.

Easily integrate the TM-L500A into any airport; the printer is fully compatible with airline communication protocols, including the AEA2009 protocol and all IATA standards for printing boarding passes and baggage tags. It also incorporates a driver for printing from any Windowss® application. This wide compatibility protects the future of your investment by supporting IATA's CUPPS initiative for next-generation airport software platforms.

Improved check-in efficiency.

Improve efficiency at the check-in desk and reduce customer queues with the TM-L500A's fast print speeds. And with its ultra-compact, lightweight design, there's more placement flexibility, so you can reclaim valuable counter space.
Flexible features.

Customise the TM-L500A to meet the individual needs of each airport or airline with a range of options, including LCD screen and control board, RFID reader/writer and external paper roll holder. Adapting for kiosks is simple thanks to the modular construction and removable casing.

Easy to use.

Even the most inexperienced operator will find the TM-L500A easy to use. It enables the creation and storage of profiles containing unique settings to make switching between multiple airlines' settings fast and straightforward.
