SureColor SC-P6500E STD

SureColor SC-P6500E STD

Best for photographers, fine-art studios and poster producers who need 24-inch output with exceptional colour accuracy.

Fast and feature-rich.

The 2.64-inch PrecisionCore MicroTFP printhead prints up 18m²/hr in photo quality. And untrained users can easily load cutsheet and posterboard from the front. It also includes Wi-Fi for connection flexibility.

Compact footprint - versatile design.

The SC-P6500E's design is contempary and compact. It fits into most working environments because of its flat and unobtrusive design. Highly detailed prints, every time.

The 6-colour UltraChrome Pro6 pigment inkset, including a new grey ink, broadens the colour gamut and provides smooth gradation and less graininess. This means the print quality is equivalent to other 8-colour printers. Security and management features.

The SC-P6500E includes enhanced IT and security features. Also, workloads can be managed more efficiently, through central management tracking applications: Epson Cloud Solutions PORT and Epson Device Admin.
