SureColor P20500

DATASHEET / BROCHURE

SureColor P20500

Best for photographers, fine-art studios and poster producers who need 64-inch output with exceptional colour accuracy.

Print quality.

The SC-P20500 uses the PrecisionCore MicroTFP printhead (same as the SC-P2000 and SC-P9500) and the UltraChrome PRO 12 inkset that includes orange, green and violet inks for a wider colour gamut. Black Enhance Overcoat technology (BEO) provides deeper blacks, improved contrast and better tonality in dark areas on gloss media.

Productivity.

This production printer boasts impressive print speeds and 1.6-litre ink bags for fewer user interventions - around half the number of ink changes compared to its predecessor, the SC-P20000. A self-encrypting SSD (960GB) allows the user to store and reprint direct from the printer's touchscreen, without the need for a PC.

Usability.

The SC-P20500 features a 4.3-inch LCD touchscreen for highly-intuitive operation. Even loading heavy roll media is a simple task, thanks to the roll adapter.

Reliability.

Nozzle Verification Technology (NVT) automatically detects nozzle condition and adjusts to avoid clogging. Other self-maintenance features include an easy-to-open cover, an interior light close to the printhead, easy access to the anti-drying cap, and a dust cover.

Environmental focus.

1.6-litre ink bags use less plastic per litre than traditional ink cartridges. The SC-P20500 complies with ENERGY STAR Ver.3.1.

KEY FEATURES

- **Larger ink capacity**

  The SC-P20500 includes the Bulk Ink Solution (1.6-litre ink bags) which results in far fewer ink changes.
- **High speed output**

  Impressive print speeds for enhanced productivity.
- **Outstanding print quality**

  The UltraChrome PRO 12 inkset includes orange, green and violet inks to provide a wider colour gamut. Black Enhance Overcoat (for deeper blacks) is also included.
- **Less user intervention**

  The dust cover helps protect the printhead and media, while Nozzle Verification Technology (NVT) provides reliable reproduction by adjusting the nozzle condition.
- **Easy to use**

  The SC-P20500 features a 4.3-inch LCD touchscreen for highly-intuitive operation. Even loading heavy roll media is a simple task, thanks to the roll adapter.
