

LabelWorks LW-Z700FK (Qwerty)

DATASHEET / BROCHURE

LabelWorks LW-Z700FK (Qwerty)

Best for warehouses and industrial sites that need durable, professional labels built to last.

Durable design.

Aimed at tough environments, the LW-Z700FK has a hard carry case for valuable protection, while a large carry handle makes it mobile.

Hands-free use.

Hot keys cut-down on typing while repetitive jobs are streamlined thanks to its innovative Pick & Print feature, which automatically prints the next label in a pre-set series when it detects that the user has selected the previous label.

Easy to use.

With tape detection, an automatic cutter and Drop Stop function, labelling cables, wiring, small pipes and other electrics or machinery has never been easier.

Plenty of choice.

The LW-Z700FK offers six different widths from 4-24mm, and 100 label designs. Tapes are suited to all kinds of environments, with the addition of both magnetic and heat-shrink tape to a roster that already includes heat-resistant, glow in the dark, reflective and iron-on labels, among others.

Professional results.

As well as fast-printing in 180dpi quality, the bundled Epson Label Editor software makes it quick and simple to transfer a image of a company logo to the LW-Z700FK for using on cable labels, adding a professional touch.

Economic to run.

With smaller margins and tapes up to 9m long, the LW-Z700FK achieves an impressively low total cost of ownership.

KEY FEATURES

- **Pick & Print**
Streamline repetitive tasks
- **Fast 180dpi print**
Professional-looking results
- **Practical design**
Hard case, carry handle and magnet for easy mounting
- **Print logos and images**
Data download function with easy-to-use software
- **Plenty of choice**
50 lengths, six widths & 100 label designs
