DATASHEET / BROCHURE

## SureColor SC-P8500DL STD

**Best for photographers, fine-art studios and poster producers who need 44-inch output with exceptional colour accuracy.**

Fast and feature-rich.

The 2.64-inch PrecisionCore MicroTFP printhead prints up to 18m<sup>2</sup>/hr in photo quality and features auto-switching between two different media types or sizes. Also, the automatic take-up reel enables high productivity roll-to-roll printing and the new drop-in auto paper loading system makes it easy for inexperienced users to handle media, including cutsheet and posterboard. Includes Wi-Fi connectivity.

Compact footprint - versatile design.

The SC-P8500DL's design is both contemporary and compact. It fits into most working environments because of its flat and unobtrusive design. Highly detailed prints, every time.

The SC-P8500DL's 6-colour UltraChrome Pro6 pigment inkset - including a new grey ink broadens the colour gamut and provides smooth gradation and less graininess. This means the print quality is equivalent to other 8-colour printers. The PrecisionCore MicroTFP printhead, Variable Sized Droplet Technology and Nozzle Verification Technology combine to produce vibrant, high-quality images. It's also supported by Adobe Postscript 3, delivering faster processing times for the most complex image reproduction<sup>1</sup>.

Security and management features.

The SC-P8500DL includes enhanced IT and security features. Also, workloads can be managed more efficiently, through central management tracking applications: Epson Cloud Solutions PORT and Epson Device Admin.
