SureColor SC-P5300 STD

SureColor SC-P5300 STD

Best for photographers, fine-art studios and poster producers who need 3-inch output with exceptional colour accuracy.

Productivity.

The SC-P5300 can easily handle high print volumes. It achieves the same image quality of its predecessor, the SC-P5000, and features a 10-channel Micro Piezo printhead with a dedicated PK/MK channel. It also supports a wide selection of media and includes a built-in roll unit and paper cassette.

Output quality.

The SC-P5300 prints up to A2 and offers deeper blacks, enhanced contrast and tonality, and bronzing reduction in dark areas on glossy media. All of this, thanks to these Epson technologies: UltraChrome Pro10 Ink, Black Enhance Overcoat (BEO) for higher black density, wider blue colour gamut with violet ink and Carbon Black Mode for even darker blacks.

Usability.

This Wi-Fi enabled pro photo printer offers a wealth of easy-to-use features that are both time saving and practical. The highly-intuitive functions range from a 4.3-inch colour LCD touchscreen, to Epson Cloud Solution PORT(EC-SP) for efficient production planning, print job management and structured support for your printer fleet. Flexibility.

Epson has created this flexible tabletop printer for photo retail stores, photographers, artists and designers. The SC-P5300 fits seamlessly into existing production printer fleets. By combining established features from other printers in the pro-photo range (SC-P700, SC-P900, SC-P5000, SC-P7500, SC-P9500).
