Introducing the new EpiqVision EF Series mini laser projectors | Google TV. Enjoy the entertainment you love, with a little help from Google.

These stylish yet affordable projectors are compact, lightweight and can be moved easily from room to room.

Images appear more vivid and bright with 3LCD technology, even in natural daylight, and with smart capabilities these projectors are the perfect solution for a virtually connected home.

Key features

- Full HD 1080p
- Project on any surface
- Up to 150 inch screen size
- Deep blacks with up to 5,000,000:1 contrast ratio
- 5W x 2 speaker
- Smart eye protection
- Fixed stand with vertical and horizontal adjustments (EF-22 only)
- Automatic obstacle avoidance and screen fit
- Automatic keystone and roll correction included
- Up to 10 years of entertainment with long-lasting laser light source⁵

Refreshingly easy to use

A general misconception is that projectors are difficult to set up but getting started with your home projector experience is easier than you may think.

Plug in

Connect your projector to a power source.

Turn on

Start the projector using the power button.

Link up

Connect your device to the HDMI port.*

Play

That's it! You're now ready to enjoy your home projector experience.

*Streaming media device, DVD player, Blu-ray player, set top box, game consoles and laptops

Feel every twist and turn

EH-TW6250

- High-quality pictures and bright, vibrant images with 2,800 lumens
- High-contrast ratio of up to 35,000:1 for deep blacks plus dark gamma uplift
- Up to 500 inch screen size
- Unique gaming enhancement features
- Vertical Lens Shift +/- 60% and vertical keystone correction
- Detail Enhancement
- Up to 11 years of entertainment with long lasting lamp light source⁷
- Under 20ms⁴ input lag rate (please change to FAST mode in image setting)

Android TV

Stunning picture quality

Lifelike Images

Epson Projectors have up to 3x Brighter Colours than comparable 1-chip DLP® projectors⁸.

3LCD technology creates exceptionally bright yet colourful images by producing an equally high White and Colour Light Output. With no rainbow effect, colour wheels or white segments, images are brighter and more true-to-life.

Don't miss out on the detail

4K PRO-UHD⁶ is not just a resolution specification. It encompasses all of the factors impacting image performance, including colour and white brightness, contrast, HDR10, colour processing, as well as the capability of receiving, processing and projecting 4K content. As a result images are more lifelike and exceed Full HD resolution.

HDR

High Dynamic Range gives images more depth and allows you to see incredible detail that's previously not been possible. HDR enriches colours making images feel more natural yet intense and, ultimately, more immersive.

The ultimate cinematic experience with 4K PRO-UHD

EH-TW7000

EH-TW7100

Immerse yourself in games, movies and box-set binges thanks to 4K PRO-UHD⁶.

Set-up is easy, with connections for streaming and other devices with two HDMI ports.

You'll get vivid colours and clearly defined shadows from our 3LCD technology and an impressive dynamic contrast ratio up to 100,000:1 on these products.

Key features

- 4K PRO-UHD⁶, with HDR support
- High-quality vibrant images with 3,000 lumens
- Deep blacks with up to 100,000:1 contrast ratio
- Up to 500 inch screen size
- Built in 10W stereo speakers (EH-TW7100 only)
- Streaming device compatibility
- Up to 7 years of entertainment with long lasting lamp light source⁷

Don't miss out on the detail

4K PRO-UHD⁶ delivers a bright, amazingly sharp lifelike picture by combining advanced Epson technologies with the ability to accept native 4K content and upscale non-4K content exceeding Full HD resolution.

Enjoy the big
screen experience
at home

CO-FH01
CO-FH02

Ideal for movies, casual gaming and much more.

These Full HD projectors are packed with a range of essential features. They are simple to set up and easy to move around making them great for home and office usage.

EpiqVision

The laser TV projector range brings affordable big screen, immersive entertainment to multiple rooms in your home.

Laser projection TV - EpiqVision Ultra (recommend for the living room)

Laser projection TV - EpiqVision Mini (portable)

- ¹ Some apps, content, and/or features may not be available in all countries. Subject to availability.
- ² Google Assistant is not available in certain languages and countries.
- ³ Casting optimised for selected services only. Streaming quality for other content may vary. Supported operating systems and devices: Android 2.3 and higher iOS® 7 and higher, Windows® 7 and higher, Mac OS® 7 and higher, and Chrome OS (version 38 or higher).
- ⁴ There is no official standard for Input Lag measurement and this measurement is made based on the method set by Epson. Please note, each manufacturer measures Input Lag independently according to their own methods and therefore it is recommended to use as reference. Projector input lag varies in consequence of a difference of input signal, setting conditions and so on.
- ⁵ Based on watching content for five hours every day with the projector set in Eco mode.
- ⁶ 4K Enhancement Technology shifts each pixel diagonally to double Full HD resolution. Resolution is Full HD in 3D Mode.
- ⁷ Based on watching an average 1hr 45mins film every day and the lamp set in eco mode.
- ⁸ 2001 to 2023, 500-lumen and above, excluding screenless TVs, Futuresource Consulting – Quarterly Projector Market Insights – Worldwide Analyzer CY23Q4.
- ⁹ Color brightness(color light output) in brightest mode, measured by a third-party lab in accordance with IDMS 15.4. Color brightness will vary depending on usage conditions. Top-selling Epson 3LCD projectors versus top-selling 1-chip DLP projectors based on NPD sales data for January 2022 to December 2022.
- ¹⁰ Gamut volume in brightest mode, measured by a third-party lab in 3D in the CIE L*a*b* coordinate space. Top-selling Epson 3LCD projectors versus top-selling 1-chip DLP projectors based on NPD sales data for January 2022 to December 2022.
