

# Introducing the ColorWorks C4000e series

Designed and developed to exactly meet customers' requirements, these colour label printers bring together a small footprint, improved integration and better connectivity for mobile label printing. Via an optional Wi-Fi dongle you can print from anywhere at any time.

Produce high quality labels on demand with the C4000 series, through greater colour gamut volume, spot colour matching and ICC profiling. All while reducing printer downtime – with the Auto Cutter easily replaceable by users, there's no need for an engineer to visit.

 Switch to  
on-demand colour

# Catering for all requirements

Model	C4000e (mk) Matte black ink	C4000e (bk) Gloss black ink

# Product labelling

Take personalised packaging to the next level, while highlighting key product information on each label. Loading is easy for a wide range of media types, and with up to 1200x1200dpi resolution, fine barcode detail is not an issue.

Use our colour label solutions to:

Produce 1-by-1 customised labels

Get gloss, textured and matt media support

Obtain spot-colour matching for brand compliance

Apply ICC profiles

Integrate with ZPII

# Healthcare / Pharma

When clear labelling goes from a nice-to-have to a must-have, the C4000 series is ready. 1200 x 1200dpi resolution and the ability to print up to 4" widths help deliver accurate patient and dosage information and clear visual instructions.

Use our colour label solutions to:

Precisely print vital information onto blank labels in one, smooth process

Work with BS5609 compliant media and inks

Use remote management tools

Obtain seamless ZPII integration
