# SureColor SC-P8500DM STD

SureColor SC-P8500DM STD

**Best for photographers, fine-art studios and poster producers who need 64-inch output with exceptional colour accuracy.**

Fast and feature-rich.

The 2.64-inch PrecisionCore MicroTFP printhead prints up 18m²/hr in photo quality and features auto-switching between two different media types or sizes. Also, the automatic take-up reel enables high productivity roll-to-roll printing and the new drop-in auto paper loading system makes it easy for inexperienced users to handle media, including cutsheet and posterboard. Includes Wi-Fi connectivity.

Scan quickly, easily and securely.

The integrated scanner allows encrypted data transmission to secure locations, or saving scans to encrypted SSD. Highly detailed prints, every time.

The SC-P8500DM's 6-colour UltraChrome Pro6 pigment inkset - including a new grey ink broadens the colour gamut and provides smooth gradation and less graininess for GIS and photo printing. This means the print quality is equivalent to other 8-colour printers. The PrecisionCore MicroTFP printhead, Variable Sized Droplet Technology and Nozzle Verification Technology combine to produce vibrant, high-quality images. It's also supported by Adobe Postscript 3, delivering faster processing times for the most complex image reproduction[1].

Security and management features.

The SC-P8500DM includes enhanced IT and security features. Also, workloads can be managed more efficiently, through central management tracking applications: Epson Cloud Solutions PORT and Epson Device Admin.

## DATASHEET / BROCHURE

## KEY FEATURES

- **Compact and contemporary design**
  Fits seamlessly into most working environments. Wi-Fi connectivity.
- **Versatility**
  Dual roll, auto take-up, auto-switching, 350/700ml ink cartridges,
- **Fully integrated scanner**
