

# SureLab SL-D500

## SureLab SL-D500

**Best for photo labs and retailers that need compact duplex photo production for cards, calendars and prints.**

Compact, lightweight and portable.

The SL-D500 features a small footprint and is the lightest and most compact SureLab printer in the Epson range. This is particularly useful when the printer needs to be transported to an event or moved to a different location onsite.

Seamless integration.

As the SL-D500 is compact and lightweight, up to three printers can be stacked to form a production tower to improve productivity. It can also work seamlessly alongside Epson DTG, signage and LFP printers. Enhanced connectivity.

This photo production printer includes USB, LAN and Wi-Fi connectivity for ease of use. Epson Cloud Solution PORT and Order Controller also support the SL-D500.

More sustainable solution.

The SL-D500 has been designed to minimise the environmental impact: compact and lightweight, reduced energy consumption per print, and a heat-free system.

## KEY FEATURES

- **Compact and stackable design**  
Fits seamlessly into most work environments
- **Connectivity**  
USB, LAN and Wi-Fi
