Epson EU-m30 (001): USB + Serial, NES, White, No PSU, No Ca-

EU-m30 (001): USB + Serial, NES, White, No PSU, No Cable

Best for kiosk builders and integrators who need a compact receipt printer module with flexible connectivity.

High-quality, reliable hardware.

Avoid downtime by choosing proven, reliable hardware from a market leader[1]. Ensure happy customers with high-quality and legible printed receipts. The EU-m30's small footprint means less space is needed for the printer.

Easy to connect and monitor.

The EU-m30 comes with USB and serial connectivity as standard. Once connected, the printers' clear indicator LEDs allow operators to assess the printer condition at a glance. Simple maintenance and installation.

The EU-m30 comes with an optional mounting kit to help securely mount the printer to the kiosk. This also makes it easier to swap the printer out for necessary maintenance. A large button cover allows both the power and feed button to be shielded from unwanted presses.

Re-export made easier.

The EU-m30 is certified as a component, leaving the vendor free to certify the overall kiosk.
