

Epson PLQ-50 (MEA)

DATASHEET / BROCHURE

PLQ-50

Best for banks and financial counters that need fast, reliable 24-pin passbook and form printing.

When upgrading existing passbook printers, the premium performance of the PLQ-50 series makes it the ideal choice. With an improved mean time between failures of 35,000 hours and reliable dot matrix technology, you can depend on these printers to deliver high-quality output with minimal intervention.

Equally, when time is tight, the PLQ-50 series delivers fast printing of up to 560 characters per second (High-Speed-Draft, 10cpi), utilising 24-pins and 94 columns. Additionally, up to 6 copies can be produced simultaneously with the original.

The printer's performance is matched by its cost-effectiveness. The ribbon is compatible across all of the Epson Passbook range and represents a budget friendly printing solution.

An LCD screen also provides valuable user convenience.

KEY FEATURES

- **Reliable**

Improved mean time between failures of 35,000 hours

- **Fast performance**

Prints up to 560 characters per second with 6+1 copies

- **Ease of use**
