TM-T20X (051): USB + Serial, PS, Blk, EU

TM-T20X (051): USB + Serial, PS, Blk, EU

Best for small retailers and cafes that need an affordable, entry-level thermal receipt printer.

Affordable.

This easy-to-use, entry-level receipt printer has an 80mm printing width. Automatic Paper Reduction feature reduces top and bottom margins, line feed width and barcode height, allowing for flexible receipt printing. This monitors and controls the amount of paper used. Paper costs are minimised by printing the top logo of the next receipt before cutting, so the top margin is further reduced by 12mm.

Reliable.

With the mean time between failures (MTBF) of 360,000 hours and a mechanism life of 15 million lines, you can rely on the TM-T20X in high-volume printing environments.

Flexible The TM-T20X comes with built-in USB + serial and ethernet interfaces. USB + Serial and ethernet make the model a long-term investment.

Fast Its print speed of 200mm/sec can save you time; ideal for when you need to beat queues quickly. Competitive price and low running costs can save you money;
