SureColor SC-F9500H

DATASHEET / BROCHURE

SureColor SC-F9500H

Best for textile producers and promotional goods makers who need high-quality 64-inch dye sublimation output.

Ideal for applications from sportswear and soft signage, to home décor and fashion, this latest addition to Epson's industry-leading range of 64-inch dye-sublimation printers offers even higher levels of quality, versatility and productivity than its highly popular predecessor. Built around the unique PrecisionCore technology, the 6-colour SC-F9500H offers an extended colour gamut when confirgured with Orange & Violet, reduced graininess and improved tonal gradation, when configured with Light Cyan & Light Magent, or vibrant, true fluorescents when configured with Fluorescent Pink & Floures-cent Yellow. Automatic Nozzle Detection with high and low pass modes, optimises output quality and consistency by adjusting nozzle conditions during printing. With an increased (2.64-inch) printhead bandwidth the SC-F9500H is great for productivity too. It also features 1.6L hot-swappable ink packs, which reduce downtime and simplify replacement, while the printer's highly compact, low-profile design makes it ideal for use in space-restricted areas, and its flat-top design creates an additional workspace for devices such as laptops. What's more, the SC-F9500H's large (4.3) touchscreen enables easy and intuitive operation, while the need for a service engineer can be eliminated by registering with the Epson Cloud Solution PORT. SC-F9500H is compatible with all major third-party software.

KEY FEATURES

- **Customisable textile printing**
  Versatile application, including sportswear, soft signage and fashion
- **Outstanding image quality**
  Wide (6-ink) colour gamut includes fluorescent ink options
- **Improved productivity**
  Wider (2.64-inch) printhead, hot-swappable ink packs, reduced downtime
- **Versatile and easy to use**
  Highly compact, flat-top design with intuitive 4.3-inch touchscreen
- **Advanced support**
  Supports remote management through Epson Cloud Solution PORT
