DATASHEET / BROCHURE

SurePress L-6534VW (CMYK-W+Or)

KEY FEATURES

Extended colour gamut •
Optimised process provides excellent image quality

High productivity •
More labels in less time - with minimum ink usage and higher quality

Outstanding reliability •
Consistent, high-quality results, time-after-time

Extremely versatile •
Print on a wide range of substrates, including film and paper

Low TCO •
Reduced downtime, minimal wastage and maximised productivity

(SurePress L-6534VW (CMYKW+Or

Best for label converters that need an extended colour gamut with white ink for premium label production.

Outstanding print quality.

Based on Epson's PrecisionCore printhead technology the L-6534VW features a central impression drum to ensure accurate colour to colour registration. High-precision jetting and dot control are delivered through a combination of print head integration, stable web transport mechanisms, robust components and high quality inks.

Expanded colour gamut.

The use of CMYK inks plus orange, with a high opacity white as standard, widen the colour gamut, enabling a broader range of applications using powerful, vibrant colours with minimum ink usage.

High Productivity.

With print speeds up to 50m/min the SurePress L6534VW produces high quality label printing on a wide range of paper and film substrates. With the option of full colour variable data printing to broaden applications.
