

SureColor SC-P8500D STD

DATASHEET / BROCHURE

SureColor SC-P8500D STD

Best for commercial photo labs and studios that need 64-inch dual-roll output with outstanding image quality.

Fast and feature-rich.

The 2.64-inch PrecisionCore MicroTFP printhead prints up to 18m²/hr in photo quality. Dual roll features auto-switching between two different media types or sizes. Also, the automatic take-up reel enables high productivity roll-to-roll printing and the new drop-in auto paper loading system makes it easy for inexperienced users to handle media, including cutsheet and posterboard. Wi-Fi for placement nearly everywhere.

Compact footprint - versatile design.

The SC-P8500D's design is both contemporary and compact. It fits into most working environments because of its flat and unobtrusive design. Highly detailed prints, every time.

The SC-P8500D's 6-colour UltraChrome Pro6 pigment inkset - including a new grey ink broadens the colour gamut and provides smooth gradation and less graininess. This means the print quality is equivalent to other 8-colour printers. The PrecisionCore MicroTFP printhead, Variable Sized Droplet Technology and Nozzle Verification Technology combine to produce vibrant, high-quality images. It's also equipped with Adobe PS 3, delivering faster processing times for the most complex image reproduction¹.

Security and management features.

The SC-P8500D includes enhanced IT and security features. Also, workloads can be managed more efficiently, through central management tracking applications: Epson Cloud Solutions PORT and Epson Device Admin.

KEY FEATURES

- **Compact and contemporary design**
Fits seamlessly into most working environments. Wi-Fi connectivity.
- **Versatility**
Dual roll, auto take-up, auto-switching, 350/700ml ink cartridges,
- **Impressive print speeds**
Prints up to 18m²/hr in photo quality
- **Management features**
Epson Cloud Solutions PORT and Epson Device Admin
- **Vibrant, high-quality images**
8-colour quality from a 6-colour printer
