1. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test patterns provided in ISO/IEC 19752. Quote yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower. 2. Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex. For more information visit www.epson.eu/testing. 3. Savings achieved in 3 years by printing 406 pages per month. Cost comparison incorporates pricing of hardware, included and replacement ink bottles/toner cartridges. Hardware pricing comparison is made based on the introductory prices of the Epson M1100 and the average price of the top selling 77% of A4 single function monochrome laser printers (print speed below 20ppm) across Greece, Czech Republic, Hungary, Poland, Rest of SEE, Romania, Slovakia, Slovenia and Turkey for the period January - December 2018 as tracked in IDC Worldwide Quarterly Hardcopy Peripherals Tracker 2018Q4.
