

WorkForce Pro WF-C579RDWF

(SA)

WorkForce Pro WF-C579RDWF

KEY FEATURES

Low running costs •

Benefit from a low Total Cost of Ownership

Fast FPOT •

4.8secs in black and 5.3 secs in colour from ready mode

High scan speeds •

60ipm single-pass duplex ADF

Lower your environmental impact •

Low energy consumption reduces CO2 footprint, no ozone gas emissions

Use with a wide range of solutions •

Print and scan management software

Best for busy offices that need super-high-yield colour printing with minimal intervention and the lowest TCO

.Low running costs

High ink yields lower the need to order and replace supplies frequently, and help to deliver predictable print costs and a competitive Total Cost of Ownership (TCO). Also, inkjet technology with fewer replacement parts, lowers the hidden costs of servicing and intervention

.High productivity

A fast First Page Out Time (FPOT) of 4.8 secs in black and 5.3 secs in colour from ready mode, print speeds of up to 24ppm in colour and mono (ISO speed), and a fast duplex scan speed of 60ipm help to keep productivity high. An improved durability of 240k pages helps print more for longer. A maximum paper capacity of 1,330 sheets means less time spent refilling

.Low environmental impact

In addition to speeding up printing, the lack of heat needed by our inkjet technology also helps to cut the environmental impact of print by providing a low power solution with fewer supplies. The high ink yield means less waste from supplies, and you can rest assured from a lack of toner dust and ozone gas emissions

.Built for business

It's compatible with a wide-range of solutions. Boost productivity and monitor print usage via server-based Epson Print Admin; control, analyse and manage your printer fleet with Epson Device Admin; or manage advanced push scan functions with Document Capture Pro. Benefit from our partner solutions like Nuance, Paper

.Cut and Y Soft that can be adapted to meet specific business needs
