

Epson LQ-2090II

LQ-2090II

Best for high-volume data processing that needs fast, reliable 24-pin 136-column dot matrix printing.

Fast print speed.

The LQ-2090II offers an improved USD (ultra speed draft) speed of 550 characters per second at 10 characters per inch, making a real difference to high-volume print runs such as stock reports and large batches of invoices or freight documents.

Increased reliability.

Epson's dot matrix technology is already mature and very reliable. Building on this, the new printer improves the mean time between failure by 25% to 25,000 power-on hours, ideal for challenging conditions or where regular maintenance is not practical.

Same consumables.

This printer uses the same ribbons as existing models, so you can upgrade your hardware and continue to use your current ribbon supplies.

KEY FEATURES

- **Fast print speed**
USD speed of 550 characters per second at 10 characters per inch
- **Increased reliability**
Mean time between failure of 25,000 power-on hours
- **Flexible printing**
24-pin, 136-column dot matrix printer
- **Increased number of copies**
Now original plus six copies
- **Same consumables**
Uses the same ribbons as existing models
