Replacement

103

1 Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default complex. For more information visit the Epson website.2. Up to 3,600 pages of ink is based on average monthly print volumes of 70 pages for home and office printers and 40 photos for EcoTank photo printers. Calculations are based on the lowest included black ink page yield for home and office printers and on the lowest included photo page yield for photo printers.3. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.4. Mobile printing solutions may require a wireless and/or an Internet connection to the printer. For a list of Epson Connect enabled printers, compatible devices, and supported ways to connect, visit www.epson.eu/connect.
