WorkForce Enterprise AM-C5000 (IL)

DATASHEET / BROCHURE

WorkForce Enterprise AM-C5000

Best for business environments that need a compact, high-speed colour MFP with low power consumption and fast FPOT.

Reliable and improved sustainability.

With a simpler, shorter paper path, paper jams can be removed more easily, and the finisher connectivity is improved. This means that service downtimes can be reduced. Through fewer consumables and supplies, it also produces less waste. With low power consumption, the overall environmental impact of printing is cut dramatically.

Efficient maintenance.

Fewer replacement parts keep user intervention to a minimum, making day-to-day maintenance fast and efficient.

Heat-Free Technology.

Epson Heat-Free Precision Core Technology requires no heat to warm up when it is switched on or awoken from sleep, which significantly reduces energy consumption. This allows Epson's Heat-Free inkjets to deliver an exceptional fast FPOT compared to laser technology.

Advanced software solution compatibility.

A variety of software solutions can be integrated into existing IT infrastructure to improve efficiency. This includes Epson Remote Services (ERS), which offers cloud-based device monitoring and management system that delivers advanced remote diagnostics for Epson business products.
