

Epson TM-T70-iHub Intelligent Printer, Black, EU

DATASHEET / BROCHURE

TM-T70-iHub Intelligent Printer, Black, EU

Best for under-counter POS setups that need a compact, front-loading thermal receipt printer.

State-of-the-art, tablet-based POS system This receipt printer works as a hub to communicate with tablets and control basic POS peripherals like cash drawers and barcode scanners. This innovative platform boasts Epson's ePOS¹ technology that allows printing from mobile devices and access to web-based services without requiring drivers. It communicates with mobile devices using the most popular web browsers supporting HTML5, such as Safari®, Chrome™, Internet Explorer® and Android browser. Users can switch between applications without changing printer settings, and can configure the printer remotely or from mobile devices.

Expandable.

The new Communications Box feature means that additional mobile devices can be easily set up for the input and output of data. These additional tablets can be used for interaction with customers, or as manager tools, or for content management.

Reliable, easy servicing and maintenance.

The TM-T70-i.

Hub is ideal for businesses that require a stable system that is cost-effective to implement and maintain. With no drivers to update and no need for a permanent connection to a PC or server, servicing and trouble-shooting are simple. This model is available in black or white.

Convenient placement.

With controls and paper loading at the front of the device, in addition to a splash-proof housing, the TM-T70-i.

Hub is designed for mounting under counters.
