

EcoTank Business+ M2170

Best for demanding businesses that need high-volume mono print, copy and scan with duplex.

Reduce your printing costs.

Save up to 1,000 AED with in-box ink vs laser printer². It features a large refillable ink tank that you fill with the included ink bottles instead of toner. From the start you have enough ink to print thousands of pages, slashing costs and saving time.

Low cost replacements.

Save up to 90% on printing costs³ with EcoTank's large ink tank and replacement ink bottles. One bottle of EcoTank ink is equivalent to five toners¹, so you'll refill less and spend less, too. Easy to use.

With a front facing tank and ink level display, the M2170 is engineered for ease of use. EcoTank ink bottles feature an airflow system, enabling the ink to flow into the refillable tank without the need for squeezing.

Print from almost anywhere.

Print on the go, with Wi.

Fi Direct and the Epson iPrint App⁴. Using your mobile, laptop or tablet device, you'll be able to send documents to print from almost any location.

Join 100m customers worldwide.

Since Epson started making EcoTanks in 2010, over 100m EcoTanks have been sold worldwide⁵, making Epson the no. 1 ink tank printer in the world⁶. 7 out of 10 ink tank printers sold in the Middle East and Africa are Epson⁶.

INK YIELD DATA

1. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test patterns provided in ISO/IEC 24711. 2. Quote yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower. 3. Based on Epson calculations, average total saving required to print the same number of pages as the average yield of ink bottles included in-box within the EcoTank Mono range. Comparison between average yield (A4 prints of ISO/IEC 19752) of EcoTank "110" bottle and the genuine consumables used on Epson within the 10 best-selling mono laser printers of Israel, Palestine and Africa (IDC Quarterly Hardcopy Peripherals Tracker, 2019 shipments, published Q1 2020). Total savings are calculated with reference to the average price of EcoTank black ink bottle and the average price of the 10 best-selling mono laser printers (print speed below 20ppm) across Israel, Saudi Arabia, South Africa and UAE for the period January - December 2018 as tracked in December 2018 as tracked in IDC Worldwide Quarterly Hardcopy Peripherals Tracker 2018Q4 and IDC EMEA Semiannual Consumables Tracker 2018H2. Competitor laser toner cartridges' yields as communicated by the manufacturers websites. 4. Requires a wireless connection to the internet. For more information, supported languages and devices please visit www.epsonconnect.eu. 5. Cumulative sales of Epson ink tank printers from 2010 to 2020 based on Epson internal shipment data. 6. IDC, Quarterly Hardcopy Peripherals Tracker, 2010 to 2020 shipments, published Q1 2020. 7. Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office
