1. Quoted yields are extrapolated based on Epson original methodology from the simulation Test Patterns provided ISO/IEC 24712 Quoted yields are NOT based on ISO/IEC 24711 or ISO/IEC 24791. Quoted yields may vary depending on the images that you print, the paper type that you use, the frequency of the printer, and environmental conditions such as temperature. Actual initial printing may deplete ink from all of the printhead's nozzles, and the yields of the initial bundled set will be lower.
2. Compared to best-selling similarly-featured printers in Middle East & Africa (IDC, Quarterly Hardcopy Peripherals Tracker, Q1 2023 to Q4 2023 shipments, published Q1 2024). Comparison based on the average yield when printing. Cost per page calculated by dividing the relevant bottle/cartridge average selling price as tracked by IDC by the yield. Epson models included: Eco Tank 112 Ink Bottle Series, Eco Tank 110 Ink Bottle Series, Eco Tank 101 Ink Bottle Series, Eco Tank 103 Ink Bottle Series, Eco Tank 664 Ink Bottle Series.
