### Replacement

\* Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 or 29103. Quoted yields are NOT based on ISO/IEC 24711 or 29102. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set will be lower.

1. Compared to best-selling similarly-featured printers in Middle East & Africa (IDC, Quarterly Hardcopy Peripherals Tracker, Q1 2023 to Q4 2023 shipments, published Q1 2024). Comparison based on the average yield when printing. Cost per page calculated by dividing the relevant bottle/cartridge average selling price as tracked by IDC by the yield. Epson models included: Eco Tank 112 Ink Bottle Series, Eco Tank 110 Ink Bottle Series, Eco Tank 101 Ink Bottle Series, Eco Tank 103 Ink Bottle Series, Eco Tank 664 Ink Bottle Series.
2. Mobile printing solutions require a wireless and/or an Internet connection to the printer. For a list of Epson Connect enabled printers, compatible devices, apps and ways to connect, visit [www.epson.com/eme](http://www.epson.com/eme)
