1. Commission Regulation (EC) No 1935/2004 is the framework legislation for FCMs. The purpose of the Regulation is to ensure the effective functioning of the internal market for materials and articles intended to come into contact directly or indirectly with food, and to secure a high level of protection of human health and the interests of consumers.2. BS5609 approved. Internationally-recognised specification for printed labels, especially for marine use. It is a requirement for drum labels that need international maritime dangerous goods certification. Lightfastness equates to Blue Wool scale 6.3. UL 969 and CSA Certified. The standard for marking and labelling systems. It refers to self adhesive labels that are used for permanent product identification; typically nameplates for appliance equipment, that include rating information, instructions or schematics.
