

# FIRST-CLASS PASSENGER PROCESSING

## FLEXIBLE AND EFFICIENT BOARDING PASS AND BAGGAGE TAG PRINTING WITH THE EPSON TM-L500A

Streamline airport operations and speed-up passenger processing with the highly reliable Epson TM-L500A printer.

This versatile device can be installed to print either boarding passes or baggage tags, and has capacity to store multiple profile settings for use across many airlines. Fast print speeds help cut the queues at check-in, and its neat, ultra-compact design frees up valuable counter space.

The TM-L500A is fully compatible with current airline communication protocols and IATA standards, so you can enjoy a fuss-free integration. And, with Epson's global support and servicing, you can rest assured that your airport operations will keep running smoothly.
